

Drugs Quiz Review - Quiz will be held on Monday, May 18th

Items to study/review:

- B.A.C. & legal limits in Vermont
- How alcohol affects everyone differently (how does gender, height, weight, and other conditions affect intoxication?)
- Alcohol content in different types of alcoholic beverages
- Which organs does alcohol affect most? What are long term consequences of continued alcohol abuse?
- Marijuana basics + THC
- Effects of long-term marijuana use
- Addiction - why is it so difficult to stop using?
- The 4 drug classifications (narcotics, hallucinogens, stimulants, depressants) and drugs that fit into those categories
- In your opinion, is marijuana a gateway drug? Why or why not? (*Short answer*)
- If you were unable to get a safe ride home from a party, what are 3 reasonable ways you could stay safe? Let's assume it's too far to walk home. (*Short answer*)
